# Frolic Field Baby Quilt

All seam allowances are  $\frac{1}{4}$ ".

## Making Half Square Triangles:

With right sides together, place a white 3" square on a patterned 3" square and draw a diagonal line (with a pencil) from one corner to another. Use this line as a guide to sew a  $\frac{1}{4}$ " seam down one side of the line. Turn your square around and repeat down the other side of the line. Cut directly along the pencil line, resulting in two new squares when opened. Press the seams open.

Place one corner of your acrylic ruler on top of the sewn square, lining up the **seam line** (not the fabric edges) with the 45 degree diagonal ruler guide and making sure you have at least  $2\frac{1}{2}$ " square of fabric under the ruler. (The accuracy of this step is important for perfectly matched corners when piecing the quilt). Trim the 2 exposed edges with your rotary cutter, spin the fabric around to the opposite corner and repeat, leaving a perfect  $2\frac{1}{2}$ " square of fabric.

Repeat this step with all the patterned 3" squares. You will have a few of these left over at the end.

## Quilt Top Layout:

Layout finished half square triangle blocks and  $2\frac{1}{2}$ " white squares as per the quilt photo (17 blocks across and 22 blocks down). Basically you are trying to create slow gradations of color, going from intense oranges and pinks to light, airy prints with white grounds, then to the greens and blues, leaving white spots scattered around the centre ground. Try not to make things too symmetrical and keep the triangles running in the same direction.

## Assembling Quilt:

Layer backing, batting and quilt top. Baste or pin.

Quilt as desired.

Square up quilt.

Join binding strips together and bind in your preferred fashion.
